## Auto Auction Management Website

Auto Auction company management and presentation website

Would you like a similar solution developed for your company?

Don't hesitate to contact us.

The website has the following sections:

- Public section that showcases the Vehicles for Auction
- Customer section for planning and Bidding
- Administration panel for content management and user management
- Post a Wish section, with user comments

Special features:

- Integration with online map to reach Auction Arenas
- Vehicle Display : Can include photos and video recordings
- Supports real-time information about Auction locations and schedule

In the screenshots below, you can see the Vehicle Display page, which can be customized by the company Staff, and the list of Vehicles for Auction.
