## **E-learning Platform Consolidation Case Study**

Keeping into account the nature of services our Client provides, the Solution delivered required a very high level of fidelity and accuracy. The sensitive parts of the E-learning Platform required special attention from our developers and testers and the final product proved to be very stable, coherent and precise, thanks to the complex Project Methodologies used by Codea's specialists and to the amount of effort concentrated towards an excellent level of quality demanded by the target industry.

**An unified and consolidated platform to sustain the Elearning activities**

**Increased control and traceability features for the Elearning process**

**Compliance with the latest standards and requirements in the Client's industry**

**Significant reduction of costs related to and increased efficiency of the E-learning process**

### **Benefits**

An unified and consolidated platform to sustain the Elearning activities

Increased control and traceability features for the E-learning process

Compliance with the latest standards and requirements in the Client's industry

Significant reduction of costs related to and increased efficiency of the E-learning process
